

Fast Attack Team				
Goal	KPI Name	KPI Description	Projected Value	Actual Value
Rapidly detect and neutralize malware threats to minimize system downtime and data compromise.	Average Malware Incident Response Time	Time taken to resolve malware incidents	4	3
Improve malware detection accuracy across systems.	Malware Detection Success Rate	Percentage of successful malware detections	95	97
Expand malware coverage to more systems.	System Coverage Rate	Number of systems covered by malware protection tools	100	120
Reduce false positives in malware alerts.	False Positive Rate	Percentage of false alerts triggered	5	3
Enhance collaboration with other security teams.	Collaborative Incident Resolution Count	Number of incidents resolved through team collaboration	10	12

Blue Team				
Goal	KPI Name	KPI Description	Projected Value	Actual Value
Develop proactive security strategies.	Security Strategy Updates	Number of updates implemented quarterly	3	4
Conduct regular threat assessments.	Threat Assessment Frequency	Number of assessments per month	2	3
Train staff on security protocols.	Security Training Completion Rate	Percentage of staff completing training	90	92
Monitor emerging security threats.	Emerging Threats Identified	Number of new threats identified	5	6
Improve overall security posture.	Security Audit Score	Score from internal security audits	85	88

Goal	KPI Name	KPI Description	Projected Value	Actual Value
Block unauthorized access attempts.	Intrusion Attempts Blocked	Percentage of blocked intrusion attempts	95	97
Monitor firewall activity effectively.	Firewall Log Review Frequency	Number of log reviews per week	5	6
Update firewall rules regularly.	Firewall Rule Update Frequency	Number of updates per month	4	5
Reduce firewall-related incidents.	Firewall Incident Rate	Number of incidents caused by firewall issues	2	1
Improve firewall performance.	Firewall Throughput	Data processed per second	1	1.2
